(base) student@student-HP-280-Pro-G6-Microtower-PC:~/TANISHA_745$ date --help
Usage: date [OPTION]... [+FORMAT]
       date [-u|--utc|--universal] [MMDDhhmm[[CC]YY][.ss]]
Display the current time in the given FORMAT, or set the system date.

Mandatory arguments to long options are mandatory for short options too.
  -d, --date=STRING      display time described by STRING, not 'now'
  --debug                annotate the parsed date,
                        and warn about questionable usage to stderr
  -f, --file=DATEFILE    like --date; once for each line of DATEFILE
  -I[FMT], --iso-8601[=FMT] output date/time in ISO 8601 format.
                        FMT='date' for date only (the default),
                        'hours', 'minutes', 'seconds', or 'ns'
                        for date and time to the indicated precision.
                        Example: 2006-08-14T02:34:56-06:00
  -R, --rfc-email         output date and time in RFC 5322 format.
                        Example: Mon, 14 Aug 2006 02:34:56 -0600
  --rfc-3339=FMT         output date/time in RFC 3339 format.
                        FMT='date', 'seconds', or 'ns'
                        for date and time to the indicated precision.
                        Example: 2006-08-14 02:34:56-06:00
  -r, --reference=FILE    display the last modification time of FILE
  -s, --set=STRING        set time described by STRING
  -u, --utc, --universal  print or set Coordinated Universal Time (UTC)
  --help                 display this help and exit
  --version              output version information and exit

FORMAT controls the output.  Interpreted sequences are:
```

```
student@student-HP-280-Pro-G6-Microtower-PC: ~/TANISHA_745
File Edit View Search Terminal Help
man: unrecognized option '--manual'
Try 'man --help' or 'man --usage' for more information.
(base) student@student-HP-280-Pro-G6-Microtower-PC:~/TANISHA_745$ man --help
Usage: man [OPTION...] [SECTION] PAGE...

-C, --config-file=FILE    use this user configuration file
-d, --debug                emit debugging messages
-D, --default              reset all options to their default values
    --warnings[=WARNINGS] enable warnings from groff

Main modes of operation:
-f, --whatis               equivalent to whatis
-k, --apropos              equivalent to apropos
-K, --global-apropos      search for text in all pages
-l, --local-file           interpret PAGE argument(s) as local filename(s)
-w, --where, --path, --location
                           print physical location of man page(s)
-W, --where-cat, --location-cat
                           print physical location of cat file(s)

-c, --catman               used by catman to reformat out of date cat pages
-R, --recode=ENCODING      output source page encoded in ENCODING

Finding manual pages:
-L, --locale=LOCALE        define the locale for this particular man search
-m, --systems=SYSTEM       use manual pages from other systems
-M, --manpath=PATH         set search path for manual pages to PATH

-S, -s, --sections=LIST    use colon separated section list
```

```
student@student-HP-280-Pro-G6-Microtower-PC: ~/TANISHA_745
File Edit View Search Terminal Help

-t, --troff                use groff to format pages
-T, --troff-device[=DEVICE] use groff with selected device

-H, --html[=BROWSER]       use www-browser or BROWSER to display HTML output
-X, --gxditview[=RESOLUTION] use groff and display through gxditview
                           (X11):
                           -X = -TX75, -X100 = -TX100, -X100-12 = -TX100-12
                           use groff and force it to produce ditroff

-Z, --ditroff              use groff and force it to produce ditroff

-?, --help                 give this help list
    --usage                 give a short usage message
-V, --version               print program version

Mandatory or optional arguments to long options are also mandatory or optional
for any corresponding short options.

Report bugs to cjwtson@debian.org.
